Dear Parent,

I want to express my gratitude and appreciation on behalf of the students & staff for your generosity in support of Kerala Flood Relief. Your personal commitment along with the students was incredibly helpful and all of you have contributed the required material in good amount.

There's no doubt that the need is huge, but your contributions will surely benefit the flood affected citizens and their families. This small gesture of kindness has sensitized the students towards the need of the society and will definitely help the people in Kerala.

Sincerely, your support has always played a key role in successful execution of schools charity drive.

Thank you again for your compassionate support.

With Warm Regards,

Principal
City International School
